SOME KEY POINTS

Platinum+ charts – with significantly larger areas, a lower price, and the best of Navionics data become a very attractive first choice to offer your customers, some examples:

Area	Based on the 2021 catalogue (inc. VAT)	The new 2022 catalogue (inc. VAT)
Central & West Europe (inc UK south)	2 x XL3 charts @ £339.00 each, total £678	Just one Large chart - £319.99
Mediterranean Sea	3 x XL3 charts @ £339 each, total £1017.	Just one Large chart - £319.99
Baltic Sea	4 x XL3 charts @ £339. total £1356	Just one Large chart - £319.99

Of course, if you have stock of 2021 Mediterranean or Baltic Platinum+ charts at the time of the new catalogue launch, we will swap them for the new versions

SOME KEY POINTS

Your stock – we believe it's unlikely that your stock will be compromised when the new catalogue is introduced. However, please be assured that we will resolve any issues to your satisfaction.

Please bear the following in mind:

- The Large Navionics+ areas of 2021 are unchanged.
- The current blank Navionics+ Small charts will automatically migrate to the new Regular areas upon activation.
- We will swap out any pre-programmed Navionics+ Small charts and replace with the new Regular.

THANK YOU!
